Amanpreet Singh

Director at Capgemini
Gurugram, Haryana, India

Summary

With over two decades of rich experience driving strategic leadership in Program Management, Delivery Excellence, Digital and Cloud Transformations, Enterprise Applications Delivery, Data Analytics, Engagement Management, IT Strategy Roadmaps, Project and Program Financial and Budgets, and In-project Sales, Amanpreet has consistently aligned advanced technology with evolving business needs to achieve organizational success.

Key Highlights -

✓ **Program Strategy:** Demonstrated proficiency in creating and executing strategies, ensuring timely project completion with high quality and innovation. Recognized for driving effective management and delivering impactful results within established timelines, achieving consistent success in cost savings. Experienced in identifying complex challenges, devising innovative solutions, and mitigating risks to ensure project success and organizational resilience.

✓ **Client Relationship Management:** Demonstrated expertise in nurturing enduring client partnerships, surpassing expectations, and enhancing satisfaction levels, while discerning client needs and offering tailored solutions to optimize outcomes and foster long-term loyalty. Instrumental in capturing new business opportunities and expanding market share through innovative approaches and strategic initiatives, contributing significantly to revenue growth and market expansion through targeted tactics and market penetration strategies.

✓ **Budget Management:** Adept at managing budgets to enhance operational efficiency and drive maximum return on investment. Consistently achieved 10% year-over-year cost savings while managing budgets exceeding \$7 million annually, showcasing fiscal responsibility and resource optimization.

✓ **Technology Leadership:** Led transformative digital and cloud initiatives, ensuring organizational agility and innovation, while

spearheading the successful delivery of enterprise-wide application projects to optimize workflows and mitigate risks. Leveraged data analytics to drive informed decision-making, resulting in revenue growth and operational efficiency gains. Additionally, established and nurtured technology practices and Centre of Excellences, fostering innovation and excellence across the organization by cultivating technical capabilities, nurturing talent, and championing best practices for continuous improvement and organizational growth.

Experience

Capgemini
